Re: Award of Contract - IFB #19-912-02 Corrective and Restoration Work to Vertical and Horizontal Fire Rated Separations in Units at the Guste III Housing Community - Group 5 & 6

In 2013, Housing Authority of New Orleans (HANO) awarded the contract for the construction of 155 mixed-income housing rental units at the Guste III redevelopment site in Central City to Parkcrest Builders (Contractor). The Contractor was obligated to deliver 155 residential rental units in seven groups between October 2014 and March 26, 2015. The Contractor missed all of the completion dates. On April 10, 2015, HANO sent a Notice of Final Default and Termination to the Contractor and requested that the Contractor’s surety company, Liberty Mutual (Surety), fulfill its obligation to complete the project. HANO signed a Takeover Agreement with the Surety, effective June 9, 2015, to restart work on the project after termination of the Contractor. The Surety rehired the Contractor to complete the work on the Surety’s behalf with new completion dates for the seven groups between July and November 2015. The Surety missed all of the completion dates. Because of the Surety’s failure to address code compliance and punch list issues within the 10 units for which they had obtained Certificates of Occupancy, HANO sent notice to the Surety that HANO would assume control of the first 10 units on July 15, 2016 and procure a contractor to complete the outstanding items so that the units could be occupied. Subsequently, with 10 of 155 Certificates of Occupancy obtained, the Surety provided notice that as of August 9, 2016 they would abandon the project.

HANO undertook the completion of the units in 5 separate contracts between 2016 and 2017. Just before HANO was scheduled to turn the last 42 units over to the property manager for leasing, a plumbing leak was discovered in Building 19. When the bathtub was removed to repair the plumbing leak, it was discovered that the original Contractor and Surety failed to install the proper wall assembly at the demising wall behind the tub. The as-built condition fails to maintain the integrity of the fire rating required by building code and does not confirm to the project construction documents. Subsequently, the gypsum wall board was removed at all affected bath and kitchen areas to reveal 36 units with compromised rated separations. A scope was drafted to repair these units in accordance with the building code. When HANO bid the project in late
2018, only one bid was received and it was more than two times the project budget. Feedback from potential bidders led to a reworking of the bid package in order to encourage more bidders to price the project.

HANO’s Invitation for Bids #19-912-02 was first advertised for bid on Friday, February 8, 2019 and bids were opened on Tuesday, March 19, 2019. HANO received 4 bids that ranged from $730,832.00 to $1,529,204.00. The project budget was $769,000.00. The contract duration is 150 days.
