NOTE: ALL REQUIRED SUBMITTAL DOCUMENTS MUST BE SUBMITTED WITH THE PROPOSAL PACKAGE.
1. Preparation of Offers
   (a) Offerors are expected to examine the statement of work, the proposed contract terms and conditions, and all instructions. Failure to do so will be at the offeror's risk.
   (b) Each offeror shall furnish the information required by the solicitation. The offeror shall sign the offer and print or type its name on the cover sheet and each continuation sheet on which it makes an entry. Erasures or other changes must be initialed by the person signing the offer. Offerors signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the HA.
   (c) Offers for services other than those specified will not be considered.

2. Submission of Offers
   (a) Offers and modifications thereof shall be submitted in sealed envelopes or packages (1) addressed to the office specified in the solicitation, and (2) showing the time specified for receipt, the solicitation number, and the name and address of the offeror.
   (b) Telegraphic offers will not be considered unless authorized by the solicitation; however, offers may be modified by written or telegraphic notice.
   (c) Facsimile offers, modifications or withdrawals will not be considered unless authorized by the solicitation.

3. Amendments to Solicitations
   (a) If this solicitation is amended, then all terms and conditions which are not modified remain unchanged.
   (b) Offerors shall acknowledge receipt of any amendments to this solicitation by
       (1) signing and returning the amendment;
       (2) identifying the amendment number and date in the space provided for this purpose on the form for submitting an offer;
       (3) letter or telegram, or
       (4) facsimile if facsimile offers are authorized in the solicitation. The HA/HUD must receive the acknowledgment by the time specified for receipt of offers.

4. Explanation to Prospective Offerors
   Any prospective offeror desiring an explanation or interpretation of the solicitation, statement of work, etc., must request it in writing soon enough to allow a reply to reach all prospective offerors before the submission of their offers. Oral explanations or instructions given before the award of the contract will not be binding. Any information given to a prospective offeror concerning a solicitation will be furnished promptly to all other prospective offerors as an amendment to the solicitation, if that information is necessary in submitting offers or if the lack of it would be prejudicial to any other prospective offerors.

5. Responsibility of Prospective Contractor
   (a) The HA shall award a contract only to a responsible prospective contractor who is able to perform successfully under the terms and conditions of the proposed contract. To be determined responsible, a prospective contractor must:
       (1) Have adequate financial resources to perform the contract, or
       the ability to obtain them;
       (2) Have a satisfactory performance record;
       (3) Have a satisfactory record of integrity and business ethics;
       (4) Have a satisfactory record of compliance with public policy (e.g., Equal Employment Opportunity); and
       (5) Not have been suspended, debarred, or otherwise determined to be ineligible for award of contracts by the Department of Housing and Urban Development or any other agency of the U.S. Government. Current lists of ineligible contractors are available for inspection at the HA/HUD.
   (b) Before an offer is considered for award, the offeror may be requested by the HA to submit a statement or other documentation regarding any of the foregoing requirements. Failure by the offeror to provide such additional information may render the offeror ineligible for award.

6. Late Submissions, Modifications, and Withdrawal of Offers
   (a) Any offer received at the place designated in the solicitation after the exact time specified for receipt will not be considered unless it is received before award is made and it -
       (1) Was sent by registered or certified mail not later than the fifth calendar day before the date specified for receipt of offers (e.g., an offer submitted in response to a solicitation requiring receipt of offers by the 20th of the month must have been mailed by the 15th);
       (2) Was sent by mail, or if authorized by the solicitation, was sent by telegraph or via facsimile, and is determined by the HA/HUD that the late receipt was due solely to mishandling by the HA/HUD after receipt at the HA;
       (3) Was sent by U.S. Postal Service Express Mail Next Day Service - Post Office to Addressee, not later than 5:00 p.m. at the place of mailing two working days prior to the date specified for receipt of proposals. The term “working days” excludes weekends and U.S. Federal holidays; or
       (4) Is the only offer received.
   (b) Any modification of an offer, except a modification resulting from the HA's request for “best and final” offer (if this solicitation is a request for proposals), is subject to the same conditions as in subparagraphs (a)(1), (2), and (3) of this provision.
   (c) A modification resulting from the HA's request for "best and final" offer received after the time and date specified in the request will not be considered unless received before award and the late receipt is due solely to mishandling by the HA after receipt at the HA.
   (d) The only acceptable evidence to establish the date of mailing of a late offer, modification, or withdrawal sent either by registered or certified mail to the U.S.S. or Canadian Postal Service postmark both on the envelope or wrapper and on the original receipt from the U.S.S. or Canadian Postal Service. Both postmarks must show a legible date or the offer, modification, or withdrawal shall be processed as if mailed late. "Postmark" means a printed, stamped, or otherwise placed impression (exclusive of a postage meter machine impression) that is readily identifiable without further action as having been supplied and affixed by employees of the U.S.S. or Canadian Postal Service on the date of mailing. Therefore, offers should request the postal clerk to place a hand cancellation blue eye postmark on both the receipt and the envelope or wrapper.
   (e) The only acceptable evidence to establish the time of receipt at the HA is the time/date stamp of HA on the offer wrapper or other documentary evidence of receipt maintained by the HA.
(f) The only acceptable evidence to establish the date of mailing of a late offer, modification, or withdrawal sent by Express Mail Next Day Service--Post Office to Addressee is the date entered by the post office receiving clerk on the "Express Mail Next Day Service--Post Office to Addressee" label and the postmark on both the envelope or wrapper and on the original receipt from the U.S. Postal Service. "Postmark" has the same meaning as defined in paragraph (c) of this provision, excluding postmarks of the Canadian Postal Service. Therefore, offers shall request the postal clerk to place a legible hand cancellation ball's eye postmark on both the receipt and the envelope or wrapper.

(g) Notwithstanding paragraph (a) of this provision, a late modification of an otherwise successful offer that makes its terms more favorable to the HA will be considered at any time it is received and may be accepted.

(h) If this solicitation is a request for proposals, proposals may be withdrawn by written notice, or if authorized by this solicitation, by telegram (including mailgram) or facsimile machine transmission received at any time before award. Proposals may be withdrawn in person by an offer or its authorized representative if the identity of the person requesting withdrawal is established and the person signs a receipt for the offer before award. If this solicitation is an invitation for bids, bids may be withdrawn at any time prior to bid opening.

7. Contract Award

(a) The HA will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the HA, cost or price and other factors, specified elsewhere in this solicitation, considered.

(b) The HA may

(1) reject any or all offers if such action is in the HA's interest,

(2) accept other than the lowest offer,

(3) waive Informalities and minor irregularities in offers received, and

(4) award more than one contract for all or part of the requirements stated.

(c) If this solicitation is a request for proposals, the HA may award a contract on the basis of initial offers received, without discussions. Therefore, each initial offer should contain the offeror's best terms from a cost or price and technical standpoint.

(d) A written award or acceptance of offer mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer shall result in a binding contract without further action by either party. If this solicitation is a request for proposals, before the offer's specified expiration time, the HA may accept an offer, whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award. Negotiations conducted after receipt of an offer do not constitute a rejection or counteroffer by the HA.

(e) Neither financial data submitted with an offer, nor representations concerning facilities or financing, will form a part of the resulting contract.

8. Service of Protest

Any protest against the award of a contract pursuant to this solicitation shall be served on the HA by obtaining written and dated acknowledgment of receipt from the HA at the address shown on the cover of this solicitation. The determination of the HA with regard to such protest or to proceed to award notwithstanding such protest shall be final unless appealed by the protestor.

9. Offer Submission

Offers shall be submitted as follows and shall be enclosed in a sealed envelope and addressed to the office specified in the solicitation. The proposal shall show the hour and date specified in the solicitation for receipt, the solicitation number, and the name and address of the offeror, on the face of the envelope.

It is very important that the offer be properly identified on the face of the envelope as set forth above in order to insure that the date and time of receipt is stamped on the face of the offer envelope. Receiving procedures are: date and time stamp those envelopes identified as proposals and deliver them immediately to the appropriate contracting officer, and only date stamp those envelopes which do not contain identification of the contents and deliver them to the appropriate procuring activity only through the routine mail delivery procedure.

THIS SECTION LEFT BLANK INTENTIONALLY
PART I – GENERAL BACKGROUND INFORMATION

1.1 Introduction/Background Information

The Guste High-Rise building is a Housing Authority of New Orleans (HANO) property located at 1301 Simon Bolivar Avenue near the intersection of Simon Bolivar Avenue and Martin Luther King Boulevard, in the New Orleans Mid City neighborhood. The building is a 12-story apartment complex comprised of 385 individual apartments. The building contains a center core with access to four (4) distinct residential wings extending from the core. The first floor of the building consists of office and community spaces, and the security station, which is where the security monitoring equipment will be located. The apartments are primarily occupied by elderly and disabled residents.

In 2012, a closed circuit TV (CCTV) security system was installed with approximately 160 cameras. Since then, numerous system problems have been reported. To date, approximately 40 cameras are not operating properly.

It is the intent of this RFP to secure an Engineering Firm/Individual to assess and design a fully modernized CCTV security system. The design shall include the removal of the old cameras, and installation of fewer new cameras, while maintaining the same security coverage.

The selected engineering firm/individual shall design a complete and modernized security camera system for operation, which includes all spatial and environmental equipment requirements. While it is anticipated that there will be no major electrical work required, the Engineer shall review the existing electrical system to ensure that the current power voltage etc., is sufficient and available to meet the requirements of a new CCTV system.

PART II – SCOPE OF SERVICES

The purpose of this Request for Proposals (RFP) is to procure an engineering firm/individual licensed in the State of Louisiana to perform an assessment, and design a closed circuit TV (CCTV) security system for operation at the Guste High Rise Community.

The engineer shall furnish sufficient organization, personnel and management staff with the necessary skill and judgment to perform all the duties and responsibilities to provide the required services. The engineer will also be responsible for providing all necessary materials, supplies, and transportation to perform the required services.

Assessment and design of a closed circuit TV (CCTV) security system for the Guste High Rise shall include, but may not be limited to the following:
1. HUD Form 51915: Model Form of Agreement Between Owner and Design Professional;
2. HUD Form 51915A: Contract Provisions Required by Federal Law or Owner Contract with the U.S. Department of Housing and Urban Development; and
3. Supplemental Conditions
4. RFP #18-911-16; Engineer Services to Perform an Assessment and Design of a Security System and at the Guste High Rise.

The selected firm/individual shall assess the needs of the site, and design a closed circuit TV (CCTV) security system for the Guste High Rise Community. Also, an assessment of the existing camera system and its spatial arrangements shall be required. A written recommendation for a modern CCTV system appropriate for the facility shall be submitted to HANO upon completion of the assessment.

The selected engineering firm/individual shall prepare design drawings for approval by HANO and Bid/Construction Documents to procure a contractor for the installation of the CCTV camera security system at the Guste High-Rise Housing Community.

The specifications of the CCTV camera security system must be able to be upgraded, and resistant to early obsolescence, and serviced locally. While the term "system" is used in this proposal to include all CCTV equipment, if necessary sub-systems or multiple non-integrated systems shall be specified.

This design should minimize the impact to the existing security, fire detection, suppression, and fire alarm systems in the building.

**Basic Service Deliverables:**

Design Services include, but are not necessarily limited to:

1. Camera Layout Drawings
   a. Schematic Drawings
   b. Bid/Construction Documents

2. System Detail Drawings (as needed to provide sufficient information for complete installation)

3. Technical Specifications

4. Cost Estimate

5. Meetings with HANO and the property manager, Guste Homes Resident Management Corporation (GHRMC), as required, to develop a full and complete CCTV camera system to meet the needs of the Housing Community.

The Engineering firm/Individual shall ensure the professional quality, technical accuracy, and coordination of all services required under the contract resulting from this RFP.
Basic Design Services:

1. Site Plans:
   
   a. Review the existing construction documents, as provided by HANO, to provide design documents for the installation of the CCTV security camera system.
   
   b. Coordinate with HANO and GHRMC staff to review and assess the CCTV camera system currently installed at the Guste III Housing Community M Building. Ensure that the design of the new CCTV security cameras system to be installed at the Guste High Rise will be compatible.

2. Additional Design Considerations:

   Additional design considerations shall include, but may not necessarily be limited to the following:
   
   a. The design shall comply with all applicable codes, ordinances, and regulations of the City of New Orleans and State of Louisiana.
   
   b. Review the existing construction documents and propose any necessary adjustments to the existing security room in order to accommodate a monitoring station with security access; proper venting/climate controls; and lighting. Adjustments to the documents may be required.

   If the current size and location of the security room is not sufficient to properly store and operate the security camera system and the necessary equipment, provide a recommendation to relocate the security room in the building.

   c. Drawings and Specifications shall sufficiently describe the Work, which shall include any modifications required to the existing electrical system, house monitors and central server.

3. The CCTV Monitoring Station:

   The CCTV Monitoring Station shall be independently accessible and secure, and shall be in a separate “office” for monitoring security.
   
   a. The design of the monitoring station shall incorporate all heating, cooling, lighting, internet access, telephone and other utilities necessary to allow for the proper functioning of all security monitoring equipment.
   
   b. Provide sound attenuation insulation in all interior walls of this space.
4. **Drawings:**

a. The engineer shall submit the Drawings and secure approval by City and State Authorities.

   It is imperative that during the design process, each design be reviewed by the applicable local authorities having jurisdiction, including but not limited to, the City of New Orleans City Planning Commission and Departments of Safety and Permits, Public Works, and Parks and Parkways; Sewerage and Water Board of New Orleans; Louisiana State Fire Marshal; Entergy; ATT; and Cox Cable.

5. **Preliminary 3rd Party Cost Estimate:**

a. The engineer shall engage a third party firm that specializes in providing Estimates of Probable Costs (cost estimates) to install a CCTV camera security system.

b. The engineer shall provide a minimum of two (2) cost estimates to perform the Work. The first shall be based on the Schematic Design of the CCTV system and the second shall be based on the final documents.

c. HANO shall assess the viability of the construction project upon delivery of the Schematic Design and Estimate of Probable Cost by the engineer.

d. The engineer shall be proactive in its value engineering services, as necessary, so as not to exceed the Construction Cost Limit, while maintaining the integrity of the project design and the timeline for construction.

6. **Preliminary Project Schedule:**

a. The engineer shall develop the initial project schedule, which includes design, bidding, contracting and construction. The schedule shall include milestones, as directed by HANO.

7. **Presentation and Evaluation:**

a. The engineer shall attend meetings with HANO staff, as necessary, to proceed to a new phase of design services.

4.1 Proposal Evaluation/Contract Award

Proposals received in response to this solicitation may be evaluated using a two-stage evaluation process. Stage I of the evaluation process will be used to determine the Offerors that will be included in the competitive range (short list), from which final selection for contract award(s) will ultimately be made. Stage II of the evaluation process will be reserved for the short listed firms only. Scoring will be based upon how well the proposal meets the criteria established in this RFP.

During Stage I of the evaluation process, proposals will be evaluated and scored by an Evaluation Committee. Scoring will be based on predetermined Evaluation Criteria contained in the solicitation. The available points associated with each area of consideration are shown. The results of the evaluation will be used to determine those Offerors to be included in the competitive range.

The competitive range shall include those Offerors who are determined through the evaluation process and due diligence review (verification of Contractor responsibility) to be the most
qualified. These Offerors may be requested to supply additional information to assist in completing the due diligence review. Failure to satisfactorily complete the due diligence review within the timeframe established by HANO will result in exclusion from the competitive range.

Stage II of the evaluation process may entail presentations/interviews with the Offerors in the competitive range. Offerors not included in the competitive range will not proceed to Stage II of the evaluation process. The purpose of the presentations/interviews is to provide the Evaluation Committee an opportunity to obtain additional information as a result of the written responses. Stage II evaluation will be conducted upon completion of the presentations/interviews in accordance with the same procedures and criteria outlined above for Stage I evaluation.

HANO reserves the right to make no award or decline to enter into negotiations should it believe that no Offeror to this RFP will be capable of delivering the necessary level of services within an acceptable price range and/or time period, or if the total points received after evaluations is unacceptable, as determined by HANO. Further, HANO reserves the right to forego Stage II of the evaluation process and enter into negotiations with the highest ranked firm from Stage I of the evaluation process. If an Agreement cannot be negotiated with a firm(s), HANO will terminate negotiations and the procedure will continue until a contract(s) have been negotiated. All contracts and subsequent contract awards to selected Offerors are subject to HUD funding availability, and final approval from the Housing Authority of New Orleans' Board of Commissioners, and/or the U.S. Department of Housing and Urban Development.

Based in part on federal regulations (24 CFR 85.36(b)) and Contract agreement between the Owner and HUD, no employee, officer, or agent of the Owner (HUD grantee) shall participate in selection, or in the award or administration of a contract supported by Federal funds if a conflict of interest, real or apparent, would be involved. No member, officer, or employee of the Owner, no member of the governing body of the locality in which the project is situated, no member of the governing body of the locality in which the Owner was activated, and no other public official of such locality or localities who exercises any functions or responsibilities with respect to the project, during his/her tenure or for one year thereafter, shall have any interest, direct or contract or the proceeds thereof.
